

U-VET

Improving the Environment for Pets + Vets

A Wall Mounted UV Air Purifier
Developed to kill 99.99%
of airborne viruses and micro-organisms

“ Kill 99.99% of airborne micro-organisms with one simple piece of equipment ”

-  Purifying air by simply utilising UV
-  Achieves optimum circulation of air within the surgery, improving airborne hygiene
-  U-VET cool air purifier is manufactured from high grade stainless steel
-  No Ozone, No Chemicals and No Biocides
-  Long lasting UV lamp life of 8000 hours (approximately one year of continuous use)
-  Supplied with shatterproof UVC lamp
-  Lightweight and easy to install
-  Operates in room temperatures between 0 °C - 40 °C
-  Model 55 = 60M³ Approx room size 5M x 5M x 2.4M High
Model 95 = 100M³ Approx room size 10M x 4M x 2.4M High
